

Phase 4: User Roles & Permission

Configure User Roles and Permissions

This guide outlines the steps to set up user roles and permissions for your evaluation system, ensuring controlled access.

1. Create Permission Sets:

- Navigate to **Setup** → **Permission Sets** → **New**.
- Define the following permission sets:
 - **AASES Administrator:** Grants full access to all objects.
 - **AASES Evaluator:** Allows read and write access to answer sheets and marking sheets.
 - **AASES Data Entry:** Provides creation and viewing capabilities for answer sheets only.

2. Configure Object Permissions for Each Permission Set:

- **AASES Administrator:**
 - **AnswerSheet__c:** Read, Create, Edit, Delete, View All, Modify All
 - **QuestionPaper__c:** Read, Create, Edit, Delete, View All, Modify All
 - **MarkingScheme__c:** Read, Create, Edit, Delete, View All, Modify All
